SUMMARY

Information Technology student at Siam University (GPA 3.76) with strong foundations in database systems, business intelligence reporting, and requirement analysis. Skilled in transforming raw data into actionable insights using SQL, Power BI, and Excel. Adept at logical problem-solving and cross-functional communication. Seeking an Internship to contribute to digital transformation, client reporting solutions, and system optimizations.

EDUCATION

Bachelor of Information Technology | Siam University , Bangkok Aug 2023 - Present

- Relevant coursework: Database Management, Information Systems & Design, Web Development
- GPA: 3.76 / 4.0

General Education Development (GED) | Thailand

PROJECTS AND EXPERIENCE

Student Performance Analysis Dashboard | Power BI , Power Query

- Built an interactive Power BI dashboard analyzing academic, demographic, and behavioral data across student records to surface performance trends by subject, attendance and risk group.
- Engineered a Power Query pipeline to clean and transform raw CSV data - resolved missing values, standardized inconsistent fields, and reduced manual data prep time by an estimated 60%.
- Delivered drill-down visuals enabling educators to identify at risk students by demographic segment and grade level.

Pizza Sales Performance Dashboard | Power BI , DAX , Excel

- Designed an interactive Power BI dashboard to analyze revenue, average order value, sales trends, and product performance using DAX and KPI metrics.
- Used DAX measures including revenue, Month-over-Month growth and category contribution to total sales, enabling data-driven product decisions.
- Used slicers and cross-filtering to allow self-service analysis by time period, pizza category and store location.

Local Vibe Booking Platform | MySQL , HTML , CSS , JavaScript

- Designed a normalized relational database schema (MySQL) with 4+ tables covering users, activities, bookings, and reviews – ensuring referential integrity and efficient query performance.
- Built a responsive front-end interface with HTML/CSS/JavaScript, implementing search filters and a booking flow that communicates with the backend database.
- Currently extending the platform with user authentication and an admin dashboard to manage activity listings.

TECHNICAL SKILLS

- **Data Analytics:** Power BI, Power Query, Excel, Data Cleaning, Data Transformation
- **Database:** SQL, MySQL
- **Data Visualization:** Dashboards, DAX, KPI Reporting
- **Programming :** HTML, CSS, JavaScript, Python(Basic)

CERTIFICATIONS

- **Power BI Certification** – Alison (2025)
- **Responsive Web Design Certification** – freeCodeCamp (2025)
- **Skylab Hackathon: AI Series** (Siam University 2026)

ADDITIONAL INFORMATION

Languages: English, Nepali, Hindi, Burmese

Soft Skills: Attention to detail , team Collaboration, adaptability, willingness to learn

Volunteer: Event Coordinator – International night Event | Siam University
